WOMEN'S
PLATFORM FOR ACTION
INTERNATIONAL

WE PUT WOMEN AND GIRLS FIRST

Women's Platform for Action International (WoPAI) is a new global platform of women's rights organisations. We take actions to realise, accelerate implementation and raise awareness about the Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW) and the Beijing Platform for Action (BPfA), and other relevant international human rights instruments. Together, we act for a world in which women's human dignity is respected and we fully exercise our rights and freedoms as a foundation for a human agreement of our global future.
